

Avoice of Thunderings

We are the wolf brood
The haunting howls, and
We are the giants
The flaming sword, and
We are the serpent
The mighty Jörmungandr

We are the Berserks
The wolf warriors
Tasters of blood
Bear-skinned warriors
And we are the hammer
Avoice of thunderings

**We are the storm in the Nordic skies
We are the fire that never dies
We will find you
We will take you**

**We are the storm from the Nordic skies
See as the thunder From North arise
Alight with our fire
Join our battle**

*We stand all again
We're under tree and branch
What we are, we are all a unity*

*We stand all again
We're under tree and branch
What we are, we are all a unity*

**We are the storm in the Nordic skies
We are the fire that never dies
We will find you
We will take you**

**We are the storm from the Nordic skies
See as the thunder From North arise
Alight with our fire
Join our battle**
