

Harmbidder

Howling through Giantland
Kinfolk of Fenris wolf
The twilight time draws near
Then when all living dies

Wolfes of her will rise
Mother
She who causes pain

**Ravens fly into the east
Wandering the breeder beast
Old one sits in Ironwood
Harmbidder, the mother**

**Shapeshifter, of giants blood
Father to the evil brood
Rise up to our final doom
Children of the ironwood**

The evil wolf you raised
The bane of one eyed god
The thunder silent now
When Serpent's head hangs dead

Wolfes of her will rise
Mother
She who causes pain

**Ravens fly into the east
Wandering the breeder beast
Old one sits in Ironwood
Harmbidder, the mother**

**Shapeshifter, of giants blood
Father to the evil brood
Rise up to our final doom
Children of the ironwood**

The world is all aflame
Again to woods she go
