

## **The Plague**

VERS:

I need your aid  
I will go insane  
You can't leave me when  
Darkness flows again

Not allowed to stay  
Bound to go away  
Let go of the fear  
First then I'll be near

Dark reeds in bight  
Gone the living light  
No man knows to fight  
Sickness of the night

Did we see the signs  
Omens in the skies  
Did we turn our eyes  
Now we pay the price

REF:

High up far away  
We will meet another day  
We will storm into the fight

Loose eternal bond  
I will go so far beyond  
I will no more linger on

STICK:

I'm letting go of your spirit  
I'm pushing you away  
Sunk in eternal sea  
Never dead in my memory
